

Wellington Branch Newsletter –November 2020

Monthly Update

It was so good to be back and networking again at our event on Tuesday 3 November 2020.

Thank you to Jon Harper-Slade who gave an overview of Tōtika, the NZ Construction industry Pre-Qualification Scheme. Intended to support pre-qualification assessments as part of a wider procurement process, the goal is for Tōtika to streamline the pre-qualification process and be a register of contractors and suppliers who have met a set of common pre-qualification standards.

Organisations that wish to have their pre-qualification assessments recognised by Tōtika must be audited against the scheme standard by the scheme certification body (JAS-ANZ).

We wish CHASNZ and Jon all the best with Tōtika and look forward to hearing to hearing more about it.
